TRUST NAAM MEIN, PERFECT KAAM MEIN.

List Price w.e.f. 1st Sep, 2026

TRUST NAAM MEIN, PERFECT KAAM MEIN.

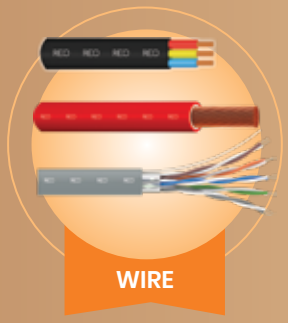

Made with love for India, in India.

That's REO - a fast-moving electrical goods brand that has won the trust of the nation with products specially designed for the value seeking Indian customer. Manufacturing 95% of our range indigenously, we at REO ensure that each product is a proof of our commitment to quality, innovation, and trust. Thanks to our cutting-edge technology and smart automation, we've successfully balanced performance with sustainability, so the products that reach you are efficient, reliable and built to last.

Choosing REO is choosing a brand that cares for you as well as the planet.

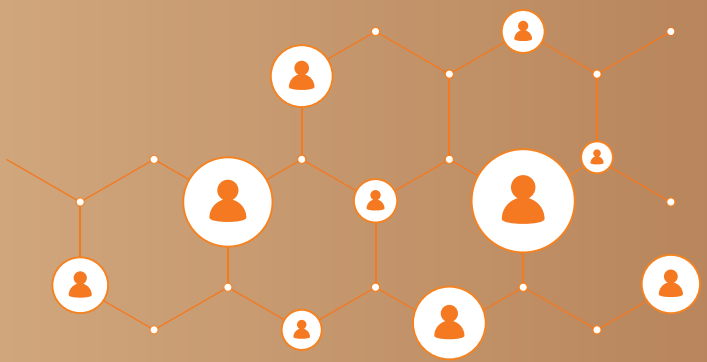

QUALITY WITH A SEAL OF TRUST

With a strong belief in
"Make in India",
REO delivers trust and
reliability to every
Indian home.

Strong Pan-India Presence

Best Manufacturing Facilities

At REO, how we make our products is as important as what we make. That's why, we use manufacturing processes that not only focus on the impact on customer's life, but the impact on the environment as well. Our commitment to conserve energy and water reflects in the Total Quality Management that has continuously helped us improve by following the principle of reduce, reuse, and recycle. At REO, we take pride in having built our workplace culture on care, safety, and everyday innovation, inspired by the Japanese Kaizen methodology. Each of our plants operates with a focus on efficiency and a deep sense of responsibility towards the local communities which they are part of.

Best-in-industry - Innovation Centre

- Focus on innovation as one of the main pillars for growth. Our dedicated CRI Centre in Noida brings together top experts and innovators, all focused on creating solutions that truly enhance your everyday life.
- R&D centers across our plant locations support manufacturing of Zero-defect products.
- These centers collaborate across teams to deliver the latest in technology and design — ensuring you always get the best.
- On-goinginnovationandresearchempowerourteamstodeliversmarterandmoreadvanced solutions.

MARVEL
Range of Modular Switches

REO SWITCHES KEY FEATURES

360° Rotation* for Break-free Operations

No more struggling with fragile regulators. Our ceiling fans feature a durable 360° rotation knob, designed for smooth, break-free control, giving you effortless performance that lasts.

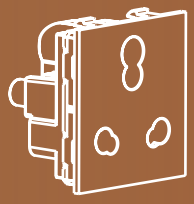

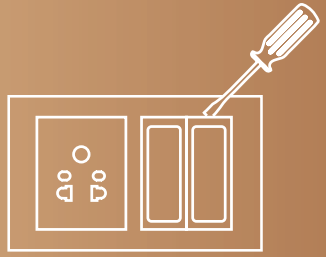

Tested for Over 1 Lakh Clicks & 10,000+ Plugging Cycles

Built to last, designed for daily life. Our switches are rigorously tested for over 100,000 operations, while our sockets are engineered to withstand more than 10,000 plug-ins and plug-outs.

6 A / 16 A Versatile Socket Design*

The REO socket features a versatile design that supports both 3-pin and 2-pin plugs, enabling effortless use of common 2-pin devices like mobile chargers.

Front Loading & Removal Plates*

The switches come with front loading and removal options making the installation process quicker and easier than ever.

*Mentioned feature may vary with product

Conforms to IP20

The switches are designed for safety, preventing accidental contact with fingers or large objects (over 12 mm).

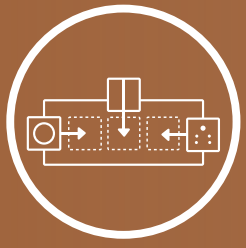

Hassle-free Plugging

With REO switches, you can be rest assured about the safety of your children as the sockets come with built-in safety shutters.

ISI & BIS Certified

At REO, we strictly follow the highest safety and quality standards. Rest assured, you are choosing nothing less than the best.

Smart Connectors*

TV, computer or projector, our smart connecting solutions have you covered. Another strong connection between you and us.

REO
WIRE

Domestic Cable

REO WIRE KEY FEATURES

Domestic Cables
FLAME RETARDANT PVC INSULATED CABLE

About FR

Electrical wires serve as crucial pathways for both industrial and household power supply. Excessive and sudden voltage fluctuation in service lines can often lead to reduced voltage at the receiving end. This lower voltage increases current flow through the wires, raising conductor temperature. Regular wires often fail under such strain, resulting in risks like short circuits and potential fire hazards.
To address these conditions, we designed REO-FR wires. Engineered using advanced technology, these wires are known for their higher current-carrying capacity, meaning higher temperature resistance and reliability in case of power overload. So, what you get is a wire that's not only energy efficient but offers enhanced safety with a longer service life.

Insulation

- Premium "A" Grade PVC Compound & Resin
- Excellent Electrical Properties
- High-Grade Copper
- Flame Retardant
- Heat & Abrasion Resistant

The robust mechanical strength, along with superior resistance to moisture, chemicals, and environmental factors, adds an extra layer of protection in challenging conditions.

ENERGY CONSUMPTION

The domestic sector uses 30% of the country's total energy consumption. REO employs high-purity copper in wire manufacturing, delivering over 101% conductivity. This high conductivity helps save around 2% to 3% on electricity bills and offers enhanced protection from voltage fluctuations.

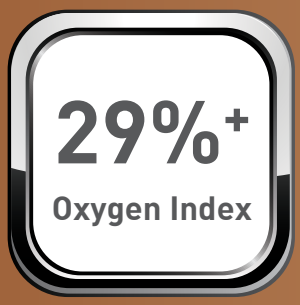

COPPER CONDUCTIVITY

REO FR PVC wires use ETP grade annealed copper, with purity exceeding 99.95%, ensuring 101% IACS conductivity for superior performance.

FLAME RETARDANT

In commercial and public infrastructure where strict fire norms apply, flame-retardant materials are critical. REO's flame retardant PVC compound limits fire spread even under extreme temperatures, meeting the flame-retardant criteria as specified in **IS 694:2010.** This provides added protection against electrical hazards like short-circuits and shocks.

OXYGEN INDEX

The REO FR PVC compound provides added fire safety due to its high Oxygen Index of 29%. A higher oxygen index means better non-combustibility, enhancing overall fire resistance.

Flame Retardant PVC Insulated Cable (Unsheathed) Flexible Cables, 1100 Volt

...Fill the colour code i.e. B = Blue B... / K = Black K... etc...

Note: Conductor as per class V of IS 8130 confirming to IS 694.

*The number and diameter of conductor strands are for reference only. Conductor resistance as per IS 8130 is the governing criteria.

Progressive sequential length marking on every metre.

Construction :-

Conductor : Plain annealed copper conductor as per IS 8130

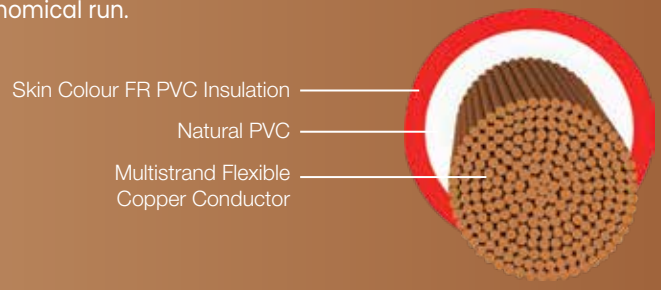

Insulation : Primary - Natural FR PVC

Secondary - Skin colour coated PVC with FR property

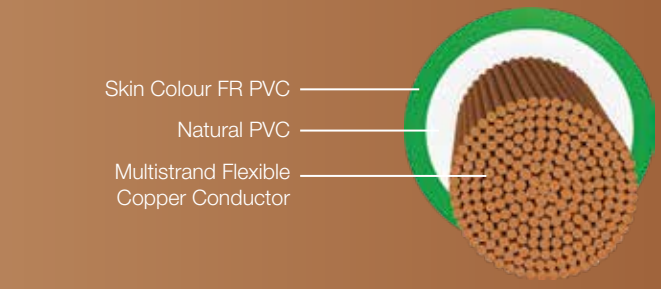

Colour : Red/Yellow/Blue/Black/Green

Any other colour on specific request can also be supplied subject to economical run.

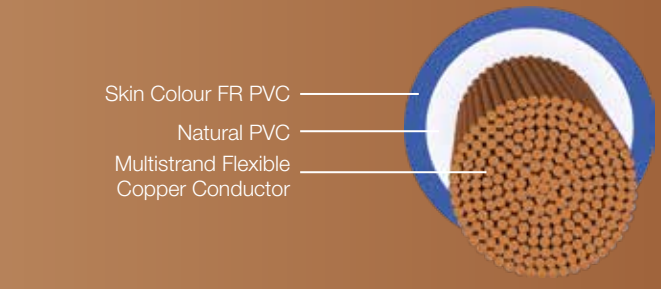

Three Core Flat PVC Insulated Copper Conductor Cable for Submersible use, 1100 Volt

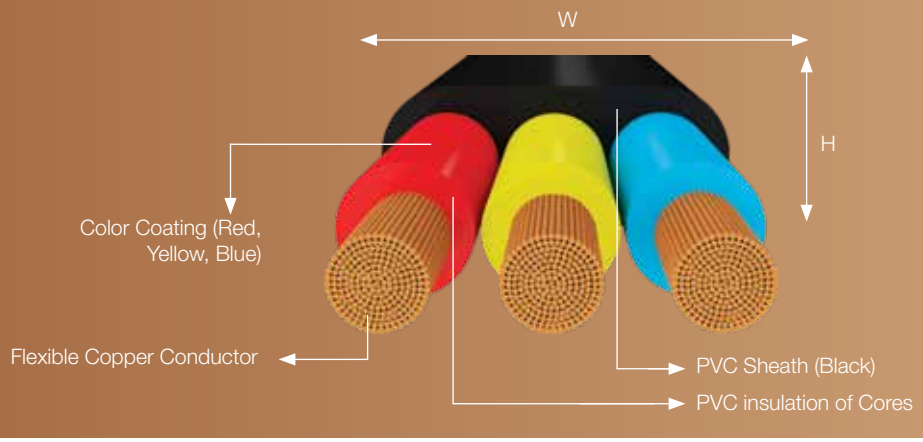

Our cable boasts a highly abrasion-resistant PVC outer sheath, impervious to grease, oil, and water, ensuring good insulation properties even when submerged. It also offers excellent mechanical and electrical properties, plus progressive sequential length marking every meter for easy installation tracking.

Key Benefits Include:
- Withstands harsh underwater and underground environments
- Reliable power supply for deep well submersible pumps
- Easy installation with sequential length marking
- Durable construction for long service life

Telephone Switch Board Cable

APPLICATION

Our telephone cables serve various purposes including indoor telephones, telephone exchanges, industrial plant communication systems, EPBAX systems, closed circuit security systems, in-house telephone wiring, and various other equipment involving telephones.

STANDARD

Cables are manufactured to strict standards, made as per TEC Specification No. G/WIR-06/03 or customized to meet customer specifications.

CONSTRUCTION

Our telephone cables are built with solid annealed tinned copper conductors for reliability, PVC insulated cores with colour coding for easy identification, twisted pairs to reduce interference, and pairs laid up and protected with a durable PVC sheath.

DESIGN / MATERIAL

Conductor	:	Tinned copper
Insulation	:	PVC
Shielding	:	Overall shielded with polyester tape
Sheathing	:	FR PVC
Conductor size Cable	:	0.4 mm
Configuration	:	2P

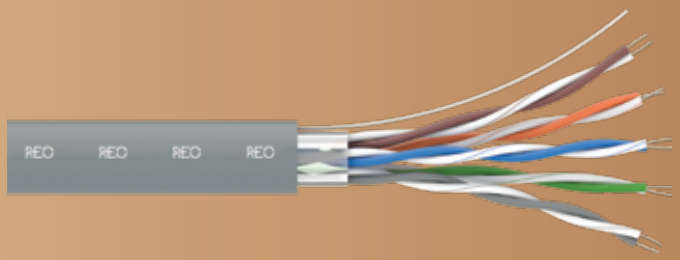

Note: Telephone Cable can also be made available with bare copper, polyethylene insulation FR-LSH/polyethylene sheathing & conductor sizes of 0.5 mm/0.6 mm on request.

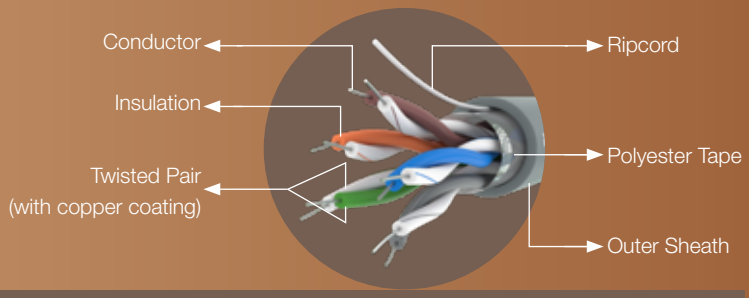

SALIENT FEATURES FOR TELEPHONE CABLE

- Hard grade PVC insulation is used for long life and stable properties of cables.
- Staggered lays of twisted pairs are used to ensure minimum cross talk.
- Sizing and processing of conductor and insulated cores is done in precisely controlled manner on automatic modern machines to have optimum values of capacitance, capacitance unbalance, image and cross talk attenuation and characteristic impendence.
- Shielding is done to protect from outside / inter pair interference as per specific needs.

PROSPECTIVE BUYERS

BSNL, C.DOT, Switching equipment manufacturers, every industrial and commercial establishment, construction industry.

No. of Pairs	UNARMOURED 0.4 mm ATC
2 pair	WRTTATEA2P40

REO COAXIAL

Co-Axial TV Cables

APPLICATION
Used in cable TV operations, Computer net-working etc.

CONSTRUCTION
Solid annealed bare copper conductor polyethylene insulated shielded with polyester backed aluminium tape and additional shielding with fine aluminium braid protected with polyester tape wrapping and sheathed with PVC.

REO
SWITCHGEAR

MCB/RCCB/Isolator/MCB Change Over/Distribution Boards

REO MCB KEY FEATURES

SAFETY REDEFINED

Finger-proof terminals help avoid accidental contact with live parts. REO MCBs are designed for safe installation, operation, and maintenance.

IP20

NON-WELDING CONTACTS

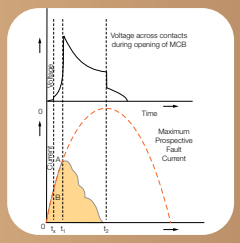

Silver-graphite contacts in REO MCBs prevent contact welding, thereby, enhancing safety and extending product lifespan.

SAFETY MEETS SUPERIOR AESTHETICS

Engineered for optimal heat dissipation and made from flame-retardant material, REO MCBs offer a perfect blend of safety and quality design.

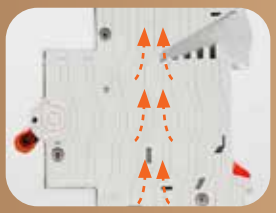

ENERGY LIMITING CLASS - 3

In case of a fault, REO's quick arc-quenching system swiftly interrupts the current flow, reducing energy dissipation and improving equipment protection.

3

INNOVATIVE BREATHING CHANNELS

REO MCBs include specially designed channels that help with air circulation where there are multiple poles installed side-by-side, ensuring cooler and more efficient operation.

COMBI-HEAD SCREW

Combi-head screws support both flat and Philips screwdrivers, enhancing installation convenience.

DUAL TERMINATION

The terminal structure accommodates both cables and busbars, offering greater installation flexibility.

SUPERIOR ARC QUENCHING ARRANGEMENT

Advanced arc plate configurations allow faster arc extinguishing and reduce carbon fume dispersion within the MCB, thereby, protecting internal components.

TECHNICAL SPECIFICATION:-

Sweep	1200 mm
Power Consumption	33 W
Air Delivery	220 m^3/min
Speed	350 r/min

Features

- Modern slim & minimalistic design.
- Low noise operation.
- Multiple timer options- 2 hours, 4 hours, and 8 hours.
- RF Remote Control for all direction sensing.
- Reverse rotation for circulating warm air during winter

Sleek and Minimalistic Design

RF Remote For All Direction Sensing

Energy Efficient BLDC Motor

Upto 8 Hours Timer Setting

Mop Mode

Reverse Rotation

Breeze Mode Natural Air Flow

KEY FEATURES

LOW POWER CONSUMPTION (WATT)

REO's star-rated fans are engineered to deliver top performance with minimal power usage.

SUPERIOR AIR DELIVERY

Designed with a high lift and optimal bend angle, REO fans ensure improved air circulation across the room.

STRONG & DURABLE 100% COPPER MOTOR**

Equipped with a powerful copper motor, REO fans offer high efficiency, Longer life, and a consistent performance.

HIGH SPEED

The robust motor ensures optimal RPM and smooth performance at rated voltage.

DOUBLE BALL BEARING

High-quality bearings are designed for durability, quieter operation, and longer service life.

Warranty Terms and Conditions for products mentioned from S. No. 1 to 3

- To avail Warranty services, customer can log in his requests with the customer care cell and must present original invoice and wherever possible original Warranty Certificate (duly signed and stamped by the Selling Dealer) to the Authorised Service Representative.
- Company will repair or replace the product at its discretion, if any manufacturing defect is found in the product.
- Warranty of repaired or replaced product shall thereafter continue only for unexpired period of Warranty and defective product shall be property of Company or its Authorized Service Partner during Warranty period.
- Company will not be liable for any delay or failure in performance resulting from causes beyond its control including non-availability of any part, labour problem, restrictions and regulations of the government, public movement, war and any other unavoidable/unforeseen circumstances including any force majeure event, specially vis-à-vis the import of supplies and raw material.
- It is clarified that the Company will not be responsible to the customer for any economic loss, commercial loss, consequential or resulting liability, damage to the property or any other harm or loss.
- In the event of any unforeseeable circumstance same product or product with similar design is not available, product will be replaced with an equivalent model available at that time.

Warranty excludes or does not apply:

- If the product is serviced or repaired by any person other than the Authorized Service Representative of the Company.
- If customer violates Warranty Terms and Conditions, instruction and installation guidelines, recommendations of Authorised Service Representative and/or operates the product otherwise than as per product specifications.
- If the serial number affixed on the product is damaged, erased or tampered with or if product is refurbished/modified.
- If the product is operated in conditions otherwise than normal conditions (e.g., abnormal voltage surge, extreme environmental conditions etc.).
- Any harm caused due to accident, negligence, improper maintenance, mishandling, tampering, incurred in transit by the customer or which can be attributed to the fault of the customer.
- Any harm resulting from any unforeseeable circumstances such as force majeure event etc.
- Any harm caused due to any defect in any electrical/civil installation(s), wiring or third party products.
- If Company's mounting boxes have not been used to mount the plates and accessories.
