COLOURS & MATERIALS

We respond instantly and instinctively to colour. The hues of orange give you the warmth and the shades of blue that cools your mood. Red that excites the passion and white that settles you in peace. Colours have that energy to make a design speak.

Switch Plates and Accessories Customisation

There is often a demand in the market for the ability to personalise the front of switch plates with symbols, text, or distinctive marks that enhance both identity and visual appeal.

GM meets this need by offering customisation options for switch plates and accessories. Using advanced laser technology, we can engrave names, logos, symbols, or trademarks with exceptional precision and permanence, even for smaller quantities.

SIGNAGE SLIDE (AA 3 123 MA)

Request of Customisation

- For switch plates and smart cards, send images in EPS or TIFF format via email or CD.
- For Edge Glow LED signage, mention the product code and symbol number (e.g. AA 3 123 MA for EXIT symbol).
- Please contact customer service for feasibility, quality, and delivery timelines.

Hospitality is the defining aspect of customer satisfaction as it's all about quality products & services. Signage solutions play an important role in communicating clear directions, amenity information and visual guidance to visitors. Hospitality covers plenty of fields under its shelter like hotels, restaurants, motels, malls, theatres and so on.

We understand that providing good quality products often help a client patronise the respective establishment, because we believe that what you serve often reflects what you are.

Notes

To make a better world, make life simpler.

It is what we strongly believe in. It is not just about innovating products, it's about everything we do that affects people and environment around us. We find us responsible to do things differently and in a better way. These are few initiatives we have already set into motion.

CLIMATE IMPACT

GM Modular supports the Climate Impact cause.
We want to help carve a better cleaner world and
that is why we started a strategic policy initiative.
We are committed to align operations and strategies
with environment friendly principles.

RECYCLE

We constantly find ways to make more out of less.
That is why we try our best to use a recyclable resource.
From tiny metal pieces to whatever that can harm
the environment in reproducing, we reuse it.

LESS TRANSPORTATION

We have regional distribution centres spread across
the country. In order to reduce the distance that our
products have to travel to reach our customers,
we have distribution centres with our channel partners
to cut down on the transportation distance that
helps curb CO_2 emissions.

BETTER HOME ENVIRONMENT

A good home environment is important for your health
and well-being. It is not only the ventilation and
construction materials, but also the things you have
inside, that influence the indoor environment of your
home. GM refrains from using any harmful raw
material that may cause unhealthy
circumstances to life.

CERTIFIED

To help consumers make qualified decisions in choosing
products that contribute to a healthy lifestyle, GM products
have received safety certifications from around the world,
as they have been tested thoroughly with regards to
their functioning.
