LED ROPE LIGHTS

The LED rope lights bring joy in people's homes with their easy to use and warm ambient lighting ideas. The cable is flexible and bends around corners, or can wrap around cylindrical objects easily. LED rope lights are in trend and their versatility of being in use for indoor and outdoor purposes gives them an edge over other primitive lighting luminaires.

ROPON

LED STRIP LIGHTS

Strip lights have become popular for festivities and home décor. The LEDs come in durable compact packages that are resistant to shock and can be used in a variety of ways. Available in long strip lengths, they have a protective covering that make them dust and water resistant (IP20/IP44/IP67). LED striplights are available in a wide range of single colour as well as multi-colour strips (RGB). Strip LEDs are cost effective and easier to install.
